The new Catholic church will soon be ready for services. The windows, and woodwork is all completed as so also is the plastering. The new altar, the gift of the Sacred Heart Convent near Chicago, has arrived and will soon be n place. Frank Rhoads is this week at work on the interior decorations-the woodwork all to be natural finish. It is pretty little church and adds much to the appearance of the south end.

The question of street opening is one now agitating the minds of citizens, as well as the town council, and there is no question that some ought to be opened to permit the town to grow. But what seems more important than the purchase of new streets, is the taking possession of those we now have. There are several streets laid off in the original plat of the town that have been occupied by private citizens for a quarter century. These should now be taken over and used for their original purpose.

Repelling Fire With a Drum

A fire of a strange nature appeared in Wales in 1693. According to the most intelligible account concerning it now in existence, it came up from the sen near Harlech. At several places near that place and all over Merionethshire it did much damage, burning hay, houses, barns, etc. A person writing of it said: "The grass over which it moves kills all manner of cattle that feed upon it. But what is most remarkable is that any great noise, such as the beating of a drum or sounding a horn, effectually repels it from any house."

When you yawn a good deal in the daytime, feel dull, achey and want to stretch frequently it is an unmistakable sympton of malaria, and unless you do something at once you are booked for a spell of chills. HERBINE is a chill medicine that will prevent or cure the disease. It drives out the impuri-tes on which the malarial germ thrives, strengthens the liver and cleanses the bowels. Price 50c.
